SPECIALITIES:

Dutch Bulbs (HYACINTHS IN PARTICULAR)

Binnewies' Cyclamen Seeds

TERMS OF SALE.

- 1. All goods are sold loco Warehouses Holland and travel at purchaser's risk and expense.
- 2. Unless contrary orders are given, forwarding and only marine insurance will be proveded for at purchaser's costs, without any responsibility for the seller.
- 3. Costs of cases and packing together with freight, forwarding, insurance charges and duty will be collected on delivery.
- 4. All accounts are strictly due three months after date of invoice; 3 pct. discount is allowed for payments within 30 days after date of invoice. On overdue accounts 6 pct. interest per annum will be charged, together with the collection expenses.
- 5. Complaints and claims about the quality of the goods cannot be entertained, unless made **immediately upon receipt** of same. If the goods are damaged, the claim must be accompanied by a Lloyd's affidavit stating all particulars.
- 6. No warranty express or implied will be given and the seller will not be in any way responsible for the results of planting or forcing of any bulbs and roots delivered.
- 7. If at the time of shipment any account payable by the buyer to any person or to members of the Holland Bulb Exporters' Association be overdue, or the financial standing of the buyer does not appear satisfactory to the seller, the seller reserves the right to cancel any part or all of this order, without stating his reasons for doing so, nor shall the buyer have any redress whatsocver for any damages which he may sustain through this action on the part of the seller.
- 8. Cancellation of orders or part of same will only be accepted when buyer agrees to pay seller his loss of profit, in no case less than 20 pct. of the amount cancelled; alterations may be allowed if both parties agree.
- 9. Verbal agreements cannot be considered, unless confirmed by letter.
- 10. Complete or partial failure of the general crop owing to frost, loss by fire, or through other causes beyond seller's control, entitles the seller to wholly or partly cancel this agreement at his own discretion without further recourse on the part of the buyer.
- 11. Accounts for Cyclomen Seeds in variation to clause 4 are strictly due 30 days after date of invoice.
- 12. By placing orders, buyer is considered to agree with these terms.

The highest prizes at the International Show in Edinburg, Scotland.

- 1931: Gold Medal of the "Deutsche Gartenbau-Gesellschaft" at the National Show in Berlin.
- 1935: The highest award at the International Agricultural Show at Oslo, Norge.

SOME OPINIONS OF TRADE PAPERS.

The editor of the "Gartenwelt" says:

"The results obtained the last few years by E. Binnewies in his Cyclamen Culture are undoubtly the greatest progress ever made to the improvement of varieties and colors.

Binnewies' Cyclamen culture is the most extensive of its kind in the world."

Gartenflora:

"The large quantity of perfect and beautiful plants which was shown to us, proves the great ability of the grower, who's equal is not to be found. It is wellknown that Binnewies has accomplished more in Cyclamen growing than any other person in the world."

Möllers Gärtnerzeitung:

"The Binnewies' strain is especially known for giving the largest flowers and strongest plants, the greatest progress is made again in the Salmon colors, a new variety of this strain is MOZART which is a deep pink variety; ORANGE BEAUTY is also a large flowering variety of splendid colour; we also got acquainted with the new variety SAFFRON RED, silver edged which makes a sturdier plant and is very free blooming."

BINNEWIES' SEED IS A SUPERIOR STRAIN AND THE CULMINATION OF 50 YEARS EXPERIENCE

HULSEBOSCH' SEED & BULB COMPANY - HILLEGOM & NEW-YORK

A Binnewies' House — measuring 100 x 15 yards — with the varieties Nr. 10 and 11 (Salmon Light and Salmon Dark)

Flowers of the Binnewies' variety Nr. 13, Rokoko erecta.

Flowers of the Binnewies' variety Nr. 20, New Ruffled, Dark red.

Flowers of the Binnewies' variety Nr. 20, New Ruffled, Carmine-rose.

FIFTY YEARS CULTIVATION OF CYCLAMEN

Approximately 30 years ago on accasion of a large exhibition, the editor of "Mollers Gärtner Zeitung" drew the special attention of exportgrowers to the extraordinary value of the new Binnewies' Cyclamen strain.

Mr. E. Binnewies, who studied the improvement of cyclamencultivation since boyhood, had reached already thén splendid results. However he did not stand still at that stage but proceeded and with the aid of his gained experience in the previous 30 years he has meanwhile reached such results that now at 50 years existance of business Binnewies' strain is acknowledged by all experts to be thé best.

The development during the last few years reached its special aim through capturing the trade with several entirely new varieties and colours, bringing Binnewies' strain to further perfection.

This monopoly of new types enabled the firm Binnewies to rebuild old ones and also add regularly to her establishment new cultivation houses fitted up in the most up to date manner and according to requirements based on lifelong experience, sothat Binnewies' business is now in its kind world's most modern and largest, bar none. It is now possible to give the desired treatment to the 10 million élite plants, which are selected there every year and which through the carefull attention, given to them individually, stamp the speciality of Binnewies' produce.

Through the above results together with a lifelong experience to guide us, our customers can rest assured that Binnewies' seeds shall easily maintain not only their recent standard of perfection, but also in the near future new progress can be expected in the perfection of colours and assortment.

"The future crop lays hidden in its seed" is a very true old saiyng.

Best seeds give largest profits; every expert grower is convinced of this. Initial buying cost may be a trifle higher but the biggest item "cost of production" remains the same in the case of less reliable seed but final results far outstanding in favour of the best class of seed.

BUY BINNEWIES' SEEDS — — WORLD'S BEST CYCLAMEN STRAIN

No, this is **no** Binnewies House. This picture is to show the difference between an average Cyclamen House and the perfectness of the Binnewies Cyclamen Houses on the other pages.

Binnewies' House with the variety Nr. 15, Sattron Red.

Binnewies' Type of the variety Striata, Nr. 17.

Different Ruffled types of Binnewies' strain.

Binnewies' variety Nr. 22, Rose of Alfeld (salmon-red, especially for cutting).

Binnewies' variety Nr. 23, Flamingo (only limited quantity available).

Binnewies' variety Nr. 16, Saffron, Red silver edged.

Opinion of Mr. Winterich, Cyclamen specialist, Lakewood, Ohio.

"Binnewies' Cyclamen seeds spell success from the very start to the developped plants. Well built, strong growing plants and large flowers, carried on good firm stems above well colored foliage, are the outstanding results of the superb Binnewies' strain.

We have grown this strain for the last 19 years, aside of other reputed Cyclamen seedgrowers' strain, and have found Binnewies' strain and seed always true to name, and ihe top-notcher in every particular."

The Binnewies' place is the largest and best equipped in the world exclusively devoted to the growing of Cyclamen and production of seeds.

From Binnewies' Seeds, you get the largest and strongest plants.

The plants grown from Binnewies' seeds have better colors and better shaped flowers than any other strain in the world.

One of our largest customers says: After several years side by side comparisons we decided that the Binnewies' strain was unquestionably the best for the commercial grower; we now handle it exclusively.

THE BEST IS ALWAYS CHEAPEST.

CYCLAMEN SEEDS

- No. 1. Dark Blood Red
 - " 2. Bright Red

Binnewies' variety Nr. 1, Dark Blood Red.

HULSEBOSCH' SEED & BULB COMPANY - HILLEGOM & NEW-YORK

Binnewies' House with Bright Red Nr. 2.

Binnewies' Salmon colour, light, No. 11.

SOME HIGHLY RECOMMENDED NOVELTIES.

By crossing with Rokoko-blood various magnificent Binnenwies'novelties have been raised, which were introduced to the trade in the last few years:

- **NEW PINK** (Nr. 22) is unequalled in its colour: a soft salmon pink undercolour, overlaid with a delicate lilac shade, giving the flower an unusual lovely appearance, without making a blueish shade.
- AMERICA IMPROVED (Nr. 8) is recognised to be the most brilliant colour of all Cyclamen varieties hitherto raised; moreover it does not fade as the flower ages, which adds much to the special value of this variety.
- **SAFFRON RED** (Nr. 15). The unequalled value of this variety is due to the charming orange shade, which uppears on a brilliant red ground colour and which shows us the flower one time as a red and another time as a salmon shade, according to the affect of lighting. This novelty has already been selected in two shades: light and dark.
- **SOFT ROSE WITH CARMINE EYE** (Nr. 4). (Improved Rose of Marienthal) has a more pure color than the old variety "Light pink with Eye", therefor an improved substitute. It has taken us years of special care and pain to select this novelty in this real pure shade.

All these novelties have already been introduced and were highly recommended in the Trade Papers. Equal to all other types of my strain, they are of a special strong growth and very free-blooming

Binnewies' Cyclamen Seeds are distributed by all first class Seedsmen and Dealers. If your Dealer should not stock them, please write direct to us:

TRADE MARK

HULSEBOSCH' BULBS AND BINNEWIES' SEEDS, THE CULMINATION OF FIFTY YEARS EXPERIENCE.

THE BEST IS ALWAYS CHEAPEST.

DUTCH BULBS.

TOPICS ON GROWING

- 1. For Forcing buy nothing but the very best guality of bulbs.
- 2. Mention to our salesmen whether you need the bulbs for
- "indoor forcing", "outdoor planting" or "counter sale". 3. Unpack bulbs immediately upon arrival and before planting keep same in a dry cool place for a few days. Avoid draught as bulbs are very sensitive.
- 4. Do not use soil in which bulbs have been grown before or soil on which the used bulbs of previous years have been left to decay. All the vitality in this soil has disappeared and our experience has often shown the most disastrous results when this soil is used for bulbs again.
- 5. Avoid the use of fresh manure, also new pots or pans or bulb-cellars next to boiler-rooms. When bulbs are planted in flats be certain to have sufficient drainage.
- 6. Do not take bulbs inside for forcing unless they are well rooted and the buds far enough advanced.
- 7. Avoid the watering of bulbs towards the evening and keep a steady temperature as much as possible.
- 2. Take care of good ventilation in bulb-cellars and in the greenhouses.

Breeder Tulips

Breeders are the unbroken forms of the old Florist tulips. Most of the varieties are purple maroon or terracotta colored. They are of enormous size and vigorous growth. These Tulips are very valuable for the garden, producing by their refined colors a most artistic effect.

perianth with a large, very flat orange-yellow cup, bordered	
red p. 100 \$ 60.—	
AGRA, (Incomparabilis), F.C.C., The very broad and overlapping	
creamy-white perianth measures $5\frac{1}{2}$ inches across; the large	
spreading crown is 2 inches in diameter, and is bright orange-	
red. Highly recommended	
Alcida (Barrii), fine large flower, pure white perianth large scarlet	
cup	100.—
AMERICAN BEAUTY, (Trumpet Daffodil), clear yellow, large very	
substantial	100.—
AMIR, (Incomparabilis), pale yellow perianth; rich orange crown of	
immense size; tall; early and vigorous p. 100 \$ 35.—	
AMBULE, (Incomparabilis), pale yellow, perianth, delicate orange	
cup, large flower of best substance \dots \dots \dots p. 100 40.—	
APOTHEOSE, (Ajax), yellow trumpet, with yellow perianth, for pot	
culture	50.—
Aspasia (Poetaz), pure white, yellow eye	35.—
AZAZEL, (Barrii), ivory-white perianth, brilliant scarletred crown;	
very fine flower	
BATH'S FLAME (Barrii), deep yellow perianth, yellow cup, edged	
scarlet, large flower	30.—
BEERSHEBA, (Trumpet Daffodil), F.C.C. The magnificent perianih is	
perfectly flat and stands at right angles to the trumpet, which	
is slightly funnel shaped and nicely flanged at the mouth. The	
whole flower is of the purest white. Highly recommended	100.—
Bernardino (Incomparabilis), creamy perianth, orange cup, frilled	30.—
Blanca (Pocticus). the earliest	40.

Single Narcissus—continued.

p.1000

	\$
 BLAZING SWORD, (Incomparabilis), F.C.C. Much overlapping, very thick, soft yellow perianth; the very large and spreading cup of deepest orange is very flat	35.—
BROTONNE, (Incomparabilis), A.M. Large and much overlapping	
 canary-yellow perianth of great substance; the large spreading crown is saturnine-red. Recommended each \$ 1.50 BUNKER HILL, (Incomparabilis), A.M. The perianth is pure white; 	
the heavily frilled, pale yellow cup changes into soft orange,	
each \$ 3.50 CARLTON, (Incomparabilis), A.M. A beautiful Incomparabilis of largest size. The perianth is very flat, broad and much overlap- ping; the large expanded cup is nicely frilled at the mouth. Clear soft yellow throughout. Highly recommended (Nimrod) p. 100 \$ 50	
CARMENCITA, (Incomparabilis), A.M. The large, well overlapping perianth is a very charming tint of pale apricot; the large ex- panded, much frilled cup is deep orange-scarlet. Highly re- commended each \$ 5.—	
CARMINOWE (Barrii), very large overlapping pure white perianth; flat intense scarlet eye p. 100 \$ 60.—	
Cassandra (Poeticus), broad white perianth, dark red cup	25.—
Charles, (Barrii), creamy yellow perianth, red edged cup CHEERFULNESS, (Double Poetaz), white perianth with full double	35.—
centre of white and yellow, very attractive	35. —
CHRISTMAS GLORY (Ajax), deep yellow, perfect shape, freeflowe-	95
ring, very early, splendid forcer	35.—
Cleopatra (Ajax), dark yellow COPPER BOWL, (Incomparabilis), A.M. The very smooth, clear yellow perianth is well overlapping; the expanded, shallow, bowl-shaped crown is clear glowing coppery orange-red. Highly recommended each \$ 7.50	50.—
Cossack (Barrii), white perianth, fiery red cup COVERACK GLORY, (Incomparabilis), delicate yellow: overlapping perianth; widely expanded crown, very freeflow: g and early 2 10 \$ 35	30.—

r

Single Narcissus—continued. p	5. 1000 \$
COVERACK PRIDE (Trumpet Daffodil), improved King Alfred p. 100 \$ 40	44
CRIMSON BRAID (Barrii) F.C.C., pure white perianth, inclined to reflex; the large, flat yellow crown, broadly edged bright red. Very late flowering p. 100 \$ 10	
CROESUS (Incomparabilis), F.C.C., large well overlapping pale yellow perianth and expanded orange-red cup. Fine garden plant. Recommended	35.—
DACTYL (Poeticus), A.M., the large pure white perianth is very smooth and thick; the flat, citron eye is sharply edged deep scarlet, late flowering p. 100 \$ 20	
DAISY SCHAEFFER (Giant Leedsii), F.C.C., very broad and over- lapping creamy-white perianth; the very large cup is soft yel- low, tinged green at the mouth. Probably the largest Leedsii in existence. Highly recommended	100.—
DAMSON (Incomparabilis), A.M., much overlapping creamy-white perianth the base of which is suffused with yellow; the long cup is solid deep red; a very brilliant flower p. 100 \$ 50.—	
DAWSON CITY (Trumpet Daffodil), F.C.C., much overlapping and ilath perianth with a very smooth trumpet, nicely flanged at the mouth. This perfect flower is golden-yellow throughout	70.—
DICK TURPIN (Barrii), A.M., round and flat, ivory-white perianth; the quite flat eye is deep red; late p. 100 \$ 50.—	
DICK WELLBAND (Incomparabilis), A.M., pure white perianth of finest quality and perfect form; the large cup is deep orange- red. Recommended	
DORINE (Incomparabilis), a very large flower with creamy-white perianth, and large expanded orange cup p. 100 \$ 30.—	
Duchess of Westminster (Leedsii), large white perianth, orange yellow cup	35.—
 Duke of Bedford (Bicolor), pure white perianth, clear soft yellow trumpet DULCIMER (Poeticus), A.M., broad snow-white perianth of good form 	40.—
and substance; the large eye is broadly margined dark red; late flowering	
Eagle (Poeticus), the finest formed Poeticus, early Early Perfection, (Poetaz), citron yellow, early forcer, tall	38.— 50.—
